

Liberties

By Sabrina M. Cummings

You better watch out
It's all undercover without a doubt
Sneakin' up on you, then take them away
It's all for your safety and well being that's what they say

You better watch out
Before too long, you'll be marching to someone else's song.
It's slowly creeping in the air
not getting away with anything,
is it really fair.

Keeping an eye on us all
Spying everywhere
before too long
Humans watching Humans
We all make mistakes
To learn that's what it takes

Attempting to make all right
Before long, it will be upon us
It's gonna be a fight

America the land of the free
Is slowly taking
OUR LIBERTIES
